

You Named Your Faves!

ISS readers choose their preferred product and service suppliers

The winners of this year's Inside Self-Storage Best of Business reader-choice poll represent every segment of the industry, from building companies to consultants to marketing firms and many others. Now in its fourth year, the annual campaign asks facility owners and operators to identify the companies providing the finest products and services in 35 categories. Each participant is allowed to vote only once in each category, and the ISS staff is explicitly prohibited from contributing.

The following list reflects this year's poll picks. If you missed your chance to vote, keep your eyes open for the next campaign kickoff in June 2015.

To the right is a sampling of this year's champions. In-depth profiles of the remaining winners are found in the following pages. The articles get to the heart of what makes these companies successful.

All the winners will be recognized at the Inside Self-Storage World Expo, April 7-9, in Las Vegas. The poll results for all four years are also available year-round on the ISS website.

Congratulations to our 2014 victors, and a very special thanks to the readers who voted in this year's campaign.

BEST CLIMATE-CONTROLLED PRODUCTS

Quest Climate Control Equipment (A Division of Therma-Stor LLC)

Owner: Madison One Holdings
Founded: 1977
Headquarters: Madison, Wis.
www.questprotect.com

Quest/Therma-Stor provides climate-control products and dehumidification systems including high-efficiency dehumidifiers. Its equipment helps storage facilities achieve true and complete climate control.

BEST TECH SUPPORT

QuikStor Security & Software

Owner: Dennis Levitt
Founded: 1987
Headquarters: Van Nuys, Calif.
www.quikstor.com

QuikStor provides management software, an online-payment center, access-control products, wireless door alarms, digital video surveillance, 3-D site graphics and office security.

BEST ONLINE DIRECTORY

SpareFoot

Owners: Chuck Gordon,
Mario Feghali
Founded: 2008
Headquarters: Austin, Texas
www.sparefoot.com

SpareFoot provides a free marketplace that helps self-storage customers find and book units at the more than 7,500 facilities in its network. The company also has exclusive partnerships with brands like Apartments.com, Penske Truck Rental and SelfStorage.com.

BEST MANAGER TRAINING

Universal Storage Group

CEO: Anthony J. Ross II
Founded: 1993
Headquarters: Atlanta
www.universalstoragegroup.com

Universal Storage Group provides operational solutions for self-storage businesses. The full-service management company also provides staff training, consulting, feasibility studies, and facility design and development services.

BEST OPERATIONAL CONSULTING

Westport Properties

Owner: Barry Hoeven
Founded: 1985
Headquarters: Newport Beach, Calif.
www.usstoragecenters.com

In business for more than 25 years, Westport Properties owns storage facilities under the US Storage Center brand name. The company also offers third-party management services, feasibility studies, development and construction services, buying power and financing. It currently owns or manages 80 properties.

MOST INNOVATIVE PRODUCT

CallPotential

Owner: Phillip Murphy
Founded: 2011
Headquarters: Plainfield, Ill.
www.callpotential.com

CallPotential technology provides small businesses with tools that allow them to compete with larger corporations. The company's cloud-based service helps self-storage operators handle call tracking, lead management and more. It sits atop a facility's management software to drive best practices and guide facility staff through the sales, rental and collection process. It can be used in a standalone fashion or integrated with various management-software tools.

BEST CONSTRUCTION-PROJECT MANAGEMENT

Mako Steel Inc.

Owners: James Bartnick,
Robert Lesko, Caesar Wright
Founded: 1993
Headquarters: Carlsbad, Calif.
www.makosteel.com

Mako is a full-service metal-building provider that has been integral in the construction of more than 1,500 self-storage facilities. For more than 20 years, the company has specialized in self-storage construction, providing developers, architects and contractors as well as engineering services, building products and skilled labor services. Its services are offered nationwide.
