

Anden A130 Industrial Dehumidifier

130 Pints Per Day

Grow environments require high-capacity, specially designed dehumidifiers to control humidity and protect crops. From the serious hobbyist to medium-sized commercial facilities, Anden industrial dehumidifiers are designed to operate effectively in the extreme conditions of any indoor cultivation environment. The Anden A130 Dehumidifier delivers superior performance, capacity and reliability that you won't find in the portable units sold via retail. With 130 pints per day removal capacity, integration with smart controls, and a 5-year warranty, you can trust Anden to protect your crop.

Features:

- High-capacity, low energy
- Digital user interface with mounting options
- Crop-level external control and sensor options
- 5-year warranty on all parts including refrigeration system
- Ducted and suspended applications
- Drain connection
- MERV 11 disposable filter
- Programmable for dehumidification and air circulation
- Corrosion-resistant aluminum coils
- 8 ft. power cord (grounded plug)

A130 SPECS:

Capacity: 130 PPD

Energy Factor: 2.8 L/kWh (5.9 pints/kWh)

Voltage: 120VAC, 1 Phase, 60 Hz

Current Draw (amps)¹: 8.3 Amps

Power (Watts)¹: 920 Watts

Weight: 113 lbs.

Width: 19 ½"

Height: 18 ¾"

Length: 30 1/16"

Warranty: 5 years on all parts

INCLUDED ITEMS:

- Drain Fitting
- 10 ft. Drain Tubing
- Duct Collars
- Installation & Operating Manual

¹ Rated capacity and energy factor test done and current draw measured in accordance with AHAM DH-1 2008 at 80°F/60% RH inlet air at 0.0 ESP. (2) Height does not include adjustable feet. The width excludes the filter doors and length excludes the duct collars.
