

Anden A130F Movable Industrial Dehumidifier

130 Pints Per Day

Grow environments require high-capacity, specially designed dehumidifiers to control humidity and protect crops. From the serious hobbyist to medium-sized commercial facilities, Anden industrial dehumidifiers are designed to operate effectively in the extreme conditions of any indoor cultivation environment. The Anden A130F Dehumidifier is a movable unit that delivers superior performance, capacity and reliability compared to other portable units sold via retail. With 130 pints per day removal capacity, integration with smart controls, and a 5-year warranty, you can trust Anden to protect your crop.

Features:

- High-capacity, low energy
- Digital user interface (top mount only)
- Crop-level external control and sensor options
- 5-year warranty on all parts including refrigeration system
- Movable and suspended applications
- Drain connection
- MERV 11 disposable filter
- Programmable for dehumidification and air circulation
- Corrosion-resistant aluminum coils
- 8 ft. power cord (grounded plug)

A130F SPECS:

Capacity: 130 PPD

Energy Factor: 2.8 L/kWh (5.9 pints/kWh)

Voltage: 120VAC, 1 Phase, 60 Hz

Current Draw (amps)¹: 8.3 Amps

Power (Watts)¹: 920 Watts

Weight: 114 lbs.

Width: 19 ½"

Height: 21" (with casters)

Length: 30 1/16"

Warranty: 5 years on all parts

INCLUDED ITEMS:

- Drain Fitting
- 10 ft. Drain Tubing
- Installation & Operating Manual

¹ Rated capacity and energy factor test done and current draw measured in accordance with AHAM DH-1 2008 at 80°F/60% RH inlet air at 0.0 ESP. (2) Height does not include adjustable feet. The width excludes the filter doors and length excludes the duct collars.
