

High capacity.
Maximize VPD.
Optimized
for late flower.

The Anden A710 features VLGR technology, which modulates the refrigeration system based on the load, allowing you to maximize VPD and provide greater control during late flower conditions.

W: 44 ⁷/₈" H: 34 ¹³/₃₂" L: 31²³/₃₂"

The industry's first
Variable-speed, Low Grain
Refrigerant dehumidifier!

Designed exclusively for cultivation, delivering the most moisture removal on the market for your initial investment.

Simply put, Anden offers the highest value meaning MORE pints per penny.
